ANA PAULA TOLEDO

SOFTWARE DEVELOPER

PROFILE

I am Ana Paula Toledo, a Software Development student with a background in electronics and a growing passion for backend development. While I enjoy exploring the structure and logic behind systems, I also have knowledge of frontend technologies. I am constantly learning and always eager to take on new challenges and grow through every project I work on.

EXPERIENCE

Software Developer CROBF   2025 –Present

- Participated in the development of a website for a clothing store.
- Contributed to both the frontend and backend aspects in collaboration with the CROBF team.
- Gained hands-on experience in real-world software projects and client interactions.

PROJECTS

Turify - Tourism Platform   2025–Present

Centralizes tourist information about San Rafael (Mendoza) and provides personalized recommendations for visitors.

Personal Blog – Web Project   2024

Designed and developed a personal blog using HTML, CSS, and Bootstrap to share content and practice web design and layout skills.
